

☾ A NEW DAILY LOOP INSIDE TATA NEU

Neu Nights

Turning ₹15 chai payments
into a **9 PM habit.**

A new daily engagement loop for Tata Neu's next generation.

☀️ Pay during the day

☾ Play at night

🔄 Earn with Tata Neu

Students use Tata Neu to buy. **Nothing makes them stay.**

Competitive reality: for a 20-year-old, Neu isn't competing with BigBasket or Croma. It's competing with **GPay** and **PhonePe** for the daily payment, and offers no reason to switch.

TATA NEU TODAY

An occasional event

Big need → Buys once → Leaves → Dormant for months

SAME STUDENT

Pays every single day

₹15 chai, ₹80 canteen, recharges go through other UPI apps. **Neu** gets one visit.

Feels too serious

Home leads with credit cards, loans, FDs and insurance.

Rewards out of reach

Big NeuCoins earning needs a NeuCard: 21+, income proof.

Habits live elsewhere

Daily UPI already sits on GPay and PhonePe.

No reason to return

Nothing to open the app for without a purchase.

THE ONE
CORE GAP

Tata Neu has transaction utility, but **no repeat-engagement loop** for students.

Conceptual illustration of today's home, not a screenshot

What if every everyday payment became a reason to return?

PAY > UNLOCK > PLAY > EARN

- Lives inside Tata Neu**
A card on the home screen. No new app, no new download.
- Rides on payments students already make**
Progress fills with each Tata Neu UPI payment.
- The 9 PM open needs no purchase**
Night mode turns a payments app into a nightly ritual.

Afternoon · Home
Entry card: 2 of 3 payments

6 PM · Checkout
Payment unlocks the token

9:31 PM · Neu Nights
No-purchase reward reveal

Three everyday payments unlock **one reason to return tonight.**

1 PAY

- ✓ ₹15 · chai
- ✓ ₹80 · canteen
- ✓ ₹105 · snacks

3 payments

Merchant payments of ₹10+ on Tata Neu UPI, the ones students already make.

2 UNLOCK

1 token

Earned on **how often** a student pays, not how much. One play per night.

3 PLAY

9 PM – 12 AM

A nightly window, when hostel students wind down. **No purchase needed.**

4 EARN

0.5% – 2%

back as **NeuCoins** on the day's eligible spend.

🎁 Rare: Starbucks drink, Croma voucher or up to 2,000 NeuCoins

AVERAGE REWARD

~0.84%

Below the 1% a NeuCard Plus holder earns on Tata Neu UPI. Students never out-earn card customers.

REWARD COST · MODELED ESTIMATE

~₹52

 per active student / month

₹33.60 everyday + ₹18 rare prizes. Assumes ₹200/day qualifying spend, 20 token nights/month. Not an operating cost.

GUARDRAILS

- 🏠 Merchant payments only, no friend transfers
- 🎯 ₹700 daily eligible-spend cap
- 🛡️ Abuse monitoring + legal/T&C review pre-launch

From morning chai to a nightly Neu habit.

Tata already owns the moments where student habits begin.

Neu Nights is the product. These three channels are distribution: they put the message where a student is about to pay.

CHANNEL 1 Campus payments

Standees beside canteen and chai-stall QRs. No new hardware: any UPI QR already works with Tata Neu.

→ Drives the 3 daily payments

CHANNEL 2 Tata's own ecosystem

BigBasket checkout offers and Tata store counters (Zudio, Westside, Croma) introduce Neu Nights mid-purchase.

→ Drives first Tata Neu UPI payments

CHANNEL 3 Student networks

Campus ambassadors, invite-a-friend and fest "Neu Zones". Invite rewards pay out only after the friend's first token.

→ Drives hostel groups joining together

LAUNCH PATH Scale only what the pilot proves

Success isn't another download. It's another day they return.

PRIMARY METRIC

Weekly habit rate

The % of student users who open Tata Neu on **at least 3 distinct days in a week**.

PROPOSED TARGET

+20%

relative lift in weekly habit rate within a **12-week campus pilot**, vs a matched control group.

A target to test, not a forecast. Baseline is measured at pilot start; none is assumed here.

WHY NOT WEEKLY ACTIVE USERS?

Buys a phone

opens once, in a sale

✓ Counts in WAU

✗ Not a habit

Neu Nights player

pays by day, plays at night

✓ Counts in WAU

✓ Habit

WAU can rise while "Buy and Bye" stays. Counting distinct days matches the brief's 2–3 opens a week and can't be inflated by repeat opens in one night.

HOW WE VALIDATE IT

Pilot campuses

5–10, with feature

Control campuses

matched, without

Week 0 → 12

habit rate, both

Decide

scale, tune or stop

WHY IT MOVED · AND WHAT MUST NOT BREAK

Week-1 activation

New students earning a first token

Week-4 retention

Still playing; nights played per week

Neu UPI frequency

Payments per student per week

Guardrails

Cost within ~₹52; fraud & payment success
